

Designer Profile

Nik Philipson

nik.philipsen@kigoe.com

804.363.8255 (c) / AIM: nik.philipsen

Abilities

Code in HTML, XHTML, CSS, PHP, MySQL, JavaScript; work with Fireworks, Dreamweaver, Frontpage, Flash, Apache, and the MySQL database engine.

Some Previous Works

Habitat for Humanity: Hammer It Home

The Hammer It Home Project, an effort by Sigma Chi and the Richmond and VCU Habitat for Humanity organizations, needed a site to sign up volunteers, as well an administrative framework to manage the data. A clear, easy-to-use form was set up, along with confirmation emails. KiGOE's 42blue administrative framework provides a clean, easy, secure way to manage the data. Utilizes XHTML, CSS, JavaScript, PHP, and MySQL. | hammerithome.org

MLWGS German

A website designed and developed for the Maggie Walker Governor's School German Program. A public website with information about the language and program was set up, which included multimedia content created in class, as was a email and calendar system. Utilizes XHTML, CSS, JavaScript, and PHP. | mlwgsgerman.org

42blue

KiGOE's administrative framework can be flexibly applied to numerous widespread applications, allowing powerful, easy, and secure data management and site control. Uses XHTML, CSS, JavaScript, PHP and MySQL. | 42blue.kigoe.com

Virginia State University: Faculty Web page for Dr. Dirk Philipson

The purpose for this site, kept in mind during the design process, is to easily and accessibly provide information about Dr. Philipson's classes and schedule while, at the same time, being easy to maintain and update. Utilizes XHTML and CSS. Created with Fireworks and Notepad. <http://150.174.33.57/facultypage/dphilipsen/>
